Reasons behind Israel's expansion of war

OPINION EXCLUSIVE

Israel's brazen attacks on Beirut continue unabated. While the Gaza war rages on, the Zionist regime has yet to achieve its declared objectives in the Palestinian enclave, and many expected the international pressure to lead to a cease-fire. However, it seems that the regime's plan is to push the war zone into Lebanon. This raises the question: what are the reasons behind Tel Aviv's expansion of the war, and why is the US openly supporting Israel in the Lebanon war?
